The Dubai Frame is created out of glass, steel, aluminum, and reinforced concrete with designs of the logo of Expo 2020 embedded on the outer facade. The Dubai Frame used the 'golden rectangle' with the side ratios of 1:1.618. It is positioned in such a way that representative landmarks of modern Dubai can be seen on one side, while from the other side, visitors can also view older parts of the city. An observation deck spans the top of the frame, with glass-bottomed floors looking down almost 150 meters onto the building's lower span. This space serves as a symbolic bridge between past and present with the two towers connected by the glass bottomed top of the frame. The lower span contains a museum showing the history of the city, and a video exhibit predicting the city's future.
